GOKUL J

Full Stack Developer
Chennai, Tamil Nadu, India 601301 | +91-9080703491 | jgokul823@gmail.com
Portfolio: gokulj-fullstack.github.io/portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building client-facing web applications using React, Django REST Framework, Python and MySQL. Delivered secure authentication with role-based access, online payment integration (Razorpay), booking workflows and admin dashboards. Strong focus on responsive, performance-conscious UI and clean, reusable component architecture.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion, GSAP, React Router
Backend: Python, Django, Django REST Framework, RESTful APIs, Role-Based Authentication
Database: MySQL, PostgreSQL, SQLite
Tools: Git, GitHub, VS Code, Vite, Razorpay Payment Gateway, WhatsApp Cloud API

EXPERIENCE

Full Stack Developer Intern 3 months
Aminiod AI

- Working as a Full Stack Developer intern, building and maintaining web application features across the React frontend and the backend APIs.
- Developing and integrating REST APIs with responsive user interfaces in a team environment.

Full Stack Developer Intern 2024
GB Tech Corp, Tambaram, Chennai

- Built a complete user authentication system using React, Django REST Framework and MySQL, covering registration, login and protected routes.
- Developed and consumed REST APIs and connected them to responsive React interfaces.
- Used Git and GitHub for version control and worked to deadlines in a team environment.

PROJECTS

Nexa Fitness – Gym Website (Freelance)
Tech: React, Vite, Framer Motion, Google Sheets + Apps Script, WhatsApp Cloud API | Live: nexafitnessstudio.com

- Built a premium, responsive 7-page website (Home, About, Facilities, Gallery, Membership, Diet, Contact) for a unisex gym with a supplement store and outdoor turf.
- Implemented lead capture stored in Google Sheets with instant WhatsApp alerts to the gym, plus click-to-chat buttons and Google Analytics 4.
- Added Framer Motion animations and a membership-offer pop-up to drive enquiries.

King Sports Club – Sports Facility Booking & Membership Platform
Tech: React, Django REST Framework, MySQL, Razorpay

- Developed a full-stack booking platform for a sports club in Padappai, Chennai, with about 12 pages using React Router.
- Implemented secure authentication with role-based access control for members and administrators.
- Built membership registration and slot/event booking workflows with real-time availability updates.
- Designed a court selection UI that mirrors the club's physical layout and integrated Razorpay for online payments.
- Created a reusable design system with custom React hooks (tilt, parallax, magnetic buttons) and a 3D hero scene.

Magic Box Padappai – Gift Shop Web Application
Tech: React, Vite, Tailwind CSS, Framer Motion, Django REST Framework

- Built a premium, fully responsive e-commerce style website for a local gift shop, with smooth animations and a reusable component library.
- Developed an admin dashboard with CRUD for products, categories, offers and branches, backed by a Django REST Framework API (PostgreSQL / SQLite).
- Implemented a theme system and completed a production-readiness pass covering functionality, responsive design and code cleanup.

EDUCATION

B.E. Computer Science and Engineering – Tagore Engineering College, Chennai 2025
CGPA: 7.58 / 10

CERTIFICATIONS

- Python Full Stack Development – FITA Academy
